Sales growth

VM Matériaux Group posted a strong rise in its consolidated sales up to 14.7% to €366.4 million for the first six months of fiscal 2011 (+7.6% like-for-like). Sales increased by 12.9% year-on-year during the second-quarter 2011 (+6.3% like-for-like).

Over the full six months, this performance is driven by the three Group’s operating divisions. The second quarter confirmed the rebound in building activity, (housing starts +13.6% at May 30th 2011 on a 12 months rolling basis), amplified by better weather conditions than last year.

- Building distribution posted turnover of €259.5 million, a 10.0% increase year on year (+8.0% like for like).
- Concrete activity turnover showed a sharp increase due to the full consolidation of Vendée Béton and PPL as from the beginning of the year, up to 115.8% to €48.9 million (+22.0% like-for-like).
- Industrial joinery posted a 6.5% increase in turnover to €74.4 million (+2.6% like for like).

Outlook and objectives

VM Matériaux Group expects the markets trends in new construction to continue over the next quarters, and will continue its growth strategy on green building and green renovation, public works and international development. Based on performances at June 30th 2011, the Group confirms that its different business sectors will contribute to its targets of organic growth, despite a tougher comparison over the next quarters.

About VM Matériaux

The VM Matériaux Group focuses on three business sectors of the building industry:

- **Building distribution** (70% of total turnover): distribution of building materials for the construction and public works sector, through a network of 116 specialized branch offices (including 24 overseas) providing locally-based advice to professional and DIY customers; the Group is also present in China, where it trades in natural stone for exterior work and interior decoration;

- **Concrete industry** (11% of total turnover): manufacture of ready-to-use and industrial concrete (slabs, paving, breeze blocks and prefabricated facade components);

- **Industrial joinery** (19% of total turnover): manufacture of exterior joinery (windows and doors in PVC, aluminium or wood), closures (roller shutters, gates, garage doors) and wood structures (trusses, traditional frames and wood panels).

Originally based in the Vendée region, VM Matériaux now employs close to 3,000 people and is active in Western France and the French overseas departments as well as in China and Canada. In 2010, the Group generated total turnover of €630.6 millions.
